At the conclusion of the argument of Attorney Gear Representative Robinson spoke briefly for WHeor. Order for the Early Closing of Club House Bars Observed.

Managers of Piaces Where Beverages Said to Be Behind the Movement.

The police yesterday served notice on clubs to close their bars at midnight. This order is in accordance with a recent opinion furnished the Commissioners by A. B. Duvall, Attorney for the District of Columbia. Managers of a number of clubs were seen last night, and the provisions of the law governing the sale of liquors were generally obeyed. The acand the Retail Liquor Dealers' Association will be allied against the clubs. No liquor will hereafter be sold at any club after midnight, except in such establishments Post 19.

Surprise was apparent at several of the clubs late in the afternoon when policemen made the rounds and notified the managers of every club to close their bars at 12 o'clock. In several instances conferences were held by club officials, but with the same result—the determina-tion to obey the order of the police. So far as known there was not a single vio-

lation of the law lass night:
Manager Fry, at the Jolly Fat Men's
Club, in D near Tenth Street northwest,
was seen by a reporter and said he would close promptly at midnight. Fry was surprised at the order of the police. He thought the club would take action very soon to obtain relief from the provisions soon to obtain relief from the provisions of the order. What this action would be, however, Manager Fry was not prepared to say. It was learned that the club applied last November for a license, which is yet pending before the Excise Board.

Manager Charles Morris said at the Home Club last night that he should close his bar at 12 o'clock. He stated that he was served with notice of the order by the police during the afternoon. Manager Morris also said that a meeting of the board of managers of the club was held late in the day, and a decision to abide by the police order was reached. He understood, moreover, from an official of the Columbia Club, that like action was to be taken by that organization. At the Concordia Club, Sixth and E Streets northwest, it was said that the police had appeared with their unwelcome order, which would be obeyed. It was stated of the order. Wolf & Rosenberg, representing the Concordia Club, also filed a brief, which was considered by Attorney Duvall. In the latter brief it was contended that clubs and hotels occupy a distinct position from ordinary barrooms. This contention was upheld by Mr. Duvall, except that it is the opinion of the Attorney of the Attorney Contention was upheld by Mr. Duvall, except that it is the upheld by Mr. Duvall, except that it is the opinion of the Attorney for the District that a special permit for the sale of liquors after hours is required by law.

CHARLESTON, S. C., Feb. 8 .- The National Mercantile Agency, Incorporated under the laws of Delaware with a capital of \$150,000, and which offered 30 per cent to depositors, was closed by the sheriff today. The Washington office was shut up a week ago. F. W. White, the president, cannot be found, and creditors have seized the establishment, where a scant stock of carpets and rugs were kept on sale.

The company opened in Charleston a year ago and had more than 300 depos-itors. A large amount of money has been paid in, the depositors agreeing to withpaid in, the depositors agreeing to with-draw it after thirty-one months, but so far no payments to depositors have been made by the company. When the scheme far no payments to depositors have been made by the company. When the scheme was first put into effect in Charleston depositors were easily secured, but the busi-ness got dull after the syndicate swindles in New York. This Way Lies Safety.

Among intelligent and careful men it is more and more becoming the custom of having the fluids of the body regularly examined microscopically, some every six months-others more frequently. In no other way can so certain a knowledge of the health of the body be ascer-tained. The kidneys having few nerves of sensation frequently do not pain one and it is only by an analysis or by carefully observing sympns that one may know of the breaking down of these great organs and a serious co of health. The many recent and sudden deaths from so-called heart-failure and apoplexy-but in truth from Bright's Disease of the Kidneys, should make every careful man and wome pause and endeavor to ascertain their exact physical condition. The registered physicians of Warner's Safe Cure Co., Rochester, N.
